MRS. IONS' MUSIC IS WELL RECEIVED

Varied Program of Young Capital Composer's Work Given at the New Willard.

The Washington music-leving public had its first opportunity last evening to hear the compositions of Mrs. Estelle Willoughby Iens, a young resident of the city, whose music was set forth in a program given in the red room of the New Willard. The verdict given by the

Mine songs, two dance numbers, and the plane solo were included in the program, in the giving of which Mrs. Ions, who was at the piano, was assisted by Miss Vera Hambly, a Canadian messosprano, and Miss Helen Griffith, a Washington student of the interpretative dance.

The love of nature is observable in Mrs. Ions' choice of poems, to which she had given murical settings. April, the tides, the rose, and love, of course, have elaimed her attention.

A levely duet in sixths expressed last evening the "Fairy Song" of William Butler Years from his "Land of Heart's Desire," while Browning's confidence was found in Mrs. Ions' setting for his well-known verses from "Pippa Parses," "The Year's in the Spring."

The climax of the svening was the "Song of the Aran Women," an instrumental portrayal of the elemental passions of the natives of the barren islands off the coust of Galway.

Miss Hambly, the singer, who gave Mrs. Ions' song, has a messo sopranovice of wide range. Miss Griffith, who danced a Hungarian and a gypay dance number, is a graceful little dancer.

See Thirty Cent Butter Price for the Consumer

OMAHA, Neb., Dec. &-The executive OMAHA, Neb., Dec. 8.—The executive committee of the American Association of Creamery Butter Makers met in secret session here and took steps to secure a reduction to a maximum of 20 cents a pound for creamery butter.

Fifty-two of the largest creamery concerns in the middle West were represented at the meting.

"Thirty cents a pound is enough for the consumer to pay for butter," said President Walker after the meeting, "In the future the price of butter will be regulated by supply and demand. Tackers who deal in oleomargarine and butterine have had much to do with the higher prices."

Would Ruin Filipinos.

"It would be a disguised policy of scuttle," he said. "It would make the helpless Filipino the football of Oriental politica, under a protection of a guaranty of their independence, which we would be powerless to enforce."

Praising the new disciplinary rules for the navy, which largely obviate severe punishments for desertions and purely military offerses, the President declared for a bigger navy, and warned the country that our position today demands that we do not cease keeping up at all times the standard of our water fightward the world to avoid war, but we are a world power, and our manifold interests and the recent adoption of the army, and the recent adoption of the three-year reserve clause, for enlisted men, which makes them subject to

three-year reserve clause, for enlisted men, which makes them subject to draft in case of war, after their enlistment has expired, the President warmly commended the change, and other innovations now under way. Among these was the militia pay bill for the national guard, the volunteer bill to provide for the quick raising of lorces in time of war, and the adoption of the resident soldiery idea for insular ponsessions.

The President warned Congress against the proposal of the Democrats to grant freedom to the Philippines and

Porto Rico, declaring "the move is iraught with the direct consequences."

Asserting that neither country, because of racial intermixture, and present liliteracy, was unfit to govern itself, the President predicted civil war and chaos if freedom were granted them now. Would Ruin Filipinos.

CRITICISE ROADS

Careless Handling of Pieces in Local Yards Alleged

Freight conditions in the local yards, both as regards late delivery and lack of care in handling, came in for some rather caustic criticism at a meeting of the furniture dealers' section of the Retail Merchants' Association yester-

merce.
It was alleged by several of the fur-niture men that there are unnecessary delays at the station in the delivery of furniture, and that in handling, the furniture is often scratched or broken.

It is admitted that furniture, on account of its size and polish, is exceedingly difficult to handle properly, but prominent desiers at yesterday's meeting believe conditions can be bettered. The matter will be brought before the Retail Merchante' Association as a whole and an investigation probably ordered. J. Philip Herman, chalirman of the furniture desiers section, presided at yesterday's meeting.
The ladies' tailors section, with Robert Pluym, as chalrman, will meet in the Chamber tonight at 8 o'cleck.
